

Meet Elizabeth! Elizabeth entered our program just a short time ago. As a young mother of three small children, Elizabeth had not parented her children for several years. Unfortunately, life on the streets and a drug addiction had Elizabeth bound from her teenage years. With us, Elizabeth not only received the education and therapeutic counseling services she needed, but also has been trained on daily life skills and employment skills at both our coffee shop and thrift store. As a result, today Elizabeth is employed working 29 hours each week. This is the first job she's had since age 16! Not only is she employed, but she also maintains sobriety, has a banking account and is reunifying with her children. Wow! Look what a little love, support and structure can do. This is just a glimpse of what's provided at the Light House.

Speaking of the house, I hope you were able to attend our annual banquet last month. What a success! It was a beautiful night with many marvelous testimonies of God's transforming work. In addition, we raised over \$156,000.00!! Thank you for supporting the cause. Thank you for shopping at our coffee shop and thank you for sharing your gently used goods with our thrift store. YOU are making an undeniable impact. If you'd like to share the opportunity with friends or make online contributions, you can find us at www.lighthousewomensrecovery.org

Blessings in abundance, Vikki
